Oct. 26, 2023 – Philippines – 19 year old TikTok Apple Paguio started vomiting blood, was rushed to the hospital and died suddenly in the hospital 3 days later.

It all started with fever and cold.

**Died: Oct.26, 2023**

This was how Youtuber Apple Paguio recounted how she lost her 19-year-old daughter Joelyn, a TikTok creator with over 16,000 followers.

Jo went home saying that she was okay and nothing extraordinary happened while she was in school. They had dinner at home and Jo even ordered the food, not knowing it was their last supper together. Hours later, Jo started having difficulty breathing, so they decided it was time to bring her to the hospital.

Before they left the house, Jo had to vomit and also defecate. Apple described Jo's vomit to be dark in color. "*Pagdating po sa sasakyan, yumakap na po siya, sabi niya, 'mommy hindi ko na kaya',*" she recalled.

It took a while before Jo was seen by a doctor due to the long queue at the emergency department. Yet the first thing that the doctor told Apple and her husband was that Jo was already in a life-and-death situation. It appeared that Jo's vomit was already blood and was a sign that her organs were failing already.

"*Tinanong sa akin ng doktor kung ito daw po ay nagsuka at nagdumi. Ang sabi ko po ay o-ho. Ang sabi ng doktor, 'matic ho 'yun, 50-50 na raw ho 'yung anak ko,'*" Apple shared before breaking into tears.

Jo was then placed under intensive care, where she spent three days before she passed on.

Oct. 23, 2023 – Brazil – 25 year old Juliana Rocha, make-up influencer on TikTok who was recently diagnosed with Leukemia, died from cardiac arrest, fluid in the lungs and allegedly tuberculosis.

**Brazilian TikTok sensation and makeup influencer Juliana Rocha has died at the age of 25, after mysteriously disappearing from social media.**

Juliana was known for posting glamorous makeup tutorials and beauty tips on TikTok, where she had amassed over 260,000 followers and 7.6 million likes.

On 23 October, Juliana's family announced in an Instagram Story on her page that the 25-year-old had tragically passed away. "It is with deep regret and sadness that Juliana Rocha's family informs you, her audience and people who loved her, that she has died," the statement read.

The Brazilian beauty guru's cause of death has not been disclosed yet, but someone claiming to be a close friend of her family said she died of cancer. According to The Mirror, the news of her passing came almost two months after she disappeared from social media.

In a statement uploaded on October 26th, it said in Juliana Rochas story:

Juliana had not been well since August, she had severe anemia and was soon hospitalized. At the hospital, all reasonable and possible care was being taken to help her get better. We soon discovered that she had water in her lungs and pneumonia, and her case was very serious. Then, dots appeared in the lung supposing to be tuberculosis.

In the early hours of Sunday to Monday, Juliana had a cardiac arrest and could not survive. Unfortunately, the cause of death was: Respiratory failure water in the lung tuberculosis. This is the reason for her death and does not need further speculation.

We thank everyone for their messages.'

## The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

*“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”*

### Reviews

*This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon*

*In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky's book is a rock upon which to sustain our fight. —Dr. Emanuel Garcia*

*In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a*

*relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test – which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists.*  
—Peter Koenig

*Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy.* –David Skripac

*A reading of Chossudovsky’s book provides a comprehensive lesson in how there is a global coup d’état under way called “The Great Reset” that if not resisted and defeated by freedom loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it’s too late. You will not find so much valuable information and analysis in one place.* –Edward Curtin
